

## **Proposed Plan for KLCR Program Review**

### Review format:

A day long review consisting of presentations from UK, U of L and KCTN addressing the use of funds, benefits of the program and outcomes. Reviewers (at least 3) will be internationally-recognized leaders in lung cancer research. The meeting would be held at the Council of Postsecondary Education.

### Material to be provide to reviewers 4-6 weeks prior to the review meeting:

- 1) Financial summary on the use of funds over the life of the program.
- 2) Highlights of:
  - a. Benefits of the program to each university and to the state;
  - b. Outcomes related to the investigator-initiated grants, early detection and prevention, clinical trials and NCI designation; and
  - c. Metrics including a report on recruitment of faculty, collaborations, scientific publications and grants, clinical trials, status of NCI designation, etc.
- 3) Current strategic plan

### Proposed external reviewers (a minimum of 3 is proposed):

- 1) Stephen Baylin, MD, Johns Hopkins University
- 2) Steven Belinsky, PhD, University of New Mexico
- 3) Paul Bunn, Jr., MD, University of Colorado Health Science Center
- 4) David Carbone, MD, PhD, Vanderbilt University
- 5) Eric Haura, MD, H. Lee Moffitt Cancer Center
- 6) Bruce Johnson, MD, Dana-Farber Cancer Institute
- 7) John Minna, MD, University of Texas Southwestern Medical Center
- 8) Jill Siegfried, PhD, University of Pittsburgh

### Expectations of Reviewers:

- 1) Should provide a written report.
- 2) Should recommend changes in the strategic plan and/or program goals as well as key metrics for the program.

### Timeline:

January 2013 – Reviewers identified and confirmed

April 2013 – Material sent to reviewers

June 2013 – On-site review
